Democritus University of Thrace (DUTH) has, since its foundation in 1974, been the first Greek regional multi-campus university that not only solely served purely educational objectives. Apart from its primary educational and research activity, its running via its multiple campuses, at first in the cities of Xanthi and Komotini, and later on in Alexandroupolis and Orestiada, has essentially participated in the efforts for the economic growth of the Administrative Region of Thrace. At the same time, the university has also significantly contributed to the reinforcement of the national and cultural character of the wider area in Thrace as well as to the upgrade of its living and social status through direct and indirect initiatives.	Το Δημοκρίτειο Πανεπιστήμιο Θράκης (ΔΠΘ) υπήρξε, από την ίδρυσή του το 1974, το πρώτο ελληνικό περιφερειακό πανεπιστήμιο πολλαπλών πανεπιστημιουπόλεων που εξυπηρετούσε καθαρά εκπαιδευτικούς στόχους και όχι μόνο. Εκτός από την πρωτοβάθμια εκπαιδευτική και ερευνητική του δραστηριότητα, η λειτουργία του μέσω των πολλαπλών πανεπιστημιουπόλεων, αρχικά στις πόλεις της Ξάνθης και της Κομοτηνής και αργότερα στην Αλεξανδρούπολη και την Ορεστιάδα, έχει συμμετάσχει ουσιαστικά στις προσπάθειες για την οικονομική ανάπτυξη της Διοικητικής Περιφέρειας Θράκης. Παράλληλα, το πανεπιστήμιο έχει συμβάλει σημαντικά στην ενίσχυση του εθνικού και πολιτιστικού χαρακτήρα της ευρύτερης περιοχής της Θράκης καθώς και στην αναβάθμιση του βιοτικού και κοινωνικού της στάτους με άμεσες και έμμεσες πρωτοβουλίες.

The Greece-Bulgaria cross-border eligible area for the programming period 2014-2020 extends to 40.202 km <sup>2</sup> and has a total population of 2.7 million inhabitants. It covers four territorial units at NUTS II level (Regions), and 11 territorial units at NUTS III level (Districts). The eligible area extends across the entire Greek-Bulgarian border and is neighbouring with Turkey (east) and the Republic of North Macedonia (west), both countries aspiring to access to the EU. It is part of the most south-eastern non-insular area of EU, and it is situated between three seas: the Black Sea, the Mediterranean Sea and the Ionian-Adriatic Sea. Finally, it sits at the crossroad of strategic fossil fuel pipelines supplying the EU market and TEN transport axes.	Трансграничната допустима област между Гърция и България за програмния период 2014-2020 г. се простира на 40,202 km <sup>2</sup> и има общо население от 2,7 miliona жители. Тя обхваща четири териториални единици на ниво NUTS II (региони) и 11 териториални единици на ниво NUTS III (области). Допустимата зона се простира през цялата гръцко-българска граница и граничи с Турция (изток) и Република Северна Македония (запад), като и двете страни се стремят към достъп до ЕС. Тя е част от най-югоизточната неостровна зона на ЕС и е разположен между три морета: Черно море, Средиземно море и Йонийско-Адриатическо море. И накрая, тя се намира на кръстопътя на стратегически тръбопроводи за изкопаеми горива, доставящи пазара на ЕС, и транспортните оси на TEN.	
The settlement structure of the area is characterized by the presence of 10 medium-large cities (>50.000 inhabitants) which accumulate 38,2% of total population, and 25 small cities (10.000-50.000 inhabitants).	Селищната структура на района се характеризира с наличието на 10 средно големи града (>50 000 жители), които концентрират 38,2% от общото население, и 25 малки града (10 000-50 000 жители).	
Despite the historically relatively small amounts of funds allocated, there is a long history of cooperation in the eligible area, which started with Community initiative INTERREG I (1989-1993).
